

Adriano Stellino
Bachelor in Transportation design at IAAD
Wins the 2009 edition
of the international "AUTOSTYLE COMPETITION"

Press release – Mantova, October 2009

Adriano Stellino, Bachelor in Transportation design at IAAD in July 2009, wins the 6th edition of AUTOSTYLE COMPETITION, winning the 1st prize in Sports Cars – Special Version category and the prize awarded by the audience.

Autostyle is born thanks to an idea of Roberto Artioli, CEO of Berman S.p.A., and di Fulvio Cinti, Auto & Design magazine Director, with the aims of starting collaborations with Design Academies and fostering a dialogue with young designers.

More than 70 students participating from all over the world: among them, only 12 reached the final.

IAAD, with Adriano Stellino (21 year old) wins 2 out of 5 prizes, assigned by a high level commission, composed by A. Rosti (Alfa Romeo), W. Egger (Audi), R. Page (Bentley), V. Matullo (Ferrari), R. Giolito (Fiat Group Automobiles – Fiat Style), A. Wheel (Land Rover), C. Stevan (Politecnico di Milano), E. D'Aprile (Toyota ED2) and presided over by F. Cinti (Auto & Design):

- first prize Sports Cars – Special Version category
- prize awarded by the audience

This new success follows the victories already obtained, in other national and international design contests, during the academic year 2008-2009, and confirms the reliability of the IAAD didactics, which foresees for each student the compulsory participation to at least two design contests every semester.
